

### Approvals and conformities

SNCF (French Railways)

Symbol 72100214

**Non-flammable, solvent-free water-based solution with no flash point. Free from lye, potash and all corrosive products.**

Replaces solvents, reducing consumption, waste and V.O.C. (volatile organic compound) emissions.

### USES

- The product can be used undiluted over a temperature range from ambient 20°C to 45°C; for maximum effectiveness, it is highly recommended to heat it, the ideal temperature being 35 to 40°C.
- Can also be used as a spray, in a container with a brush or in a bath by dipping.
- To dry, wipe off with a cloth or towel, or blow parts dry with compressed air.
- Can also be used in ultrasonic machines at a maximum temperature of 40°C.

### DIRECTIONS FOR USE

- Degreased surfaces remain dry after wiping on all types of surface (metals, plastics, glass, paint, fragile materials, etc.).
- Allows surface treatment without intermediate phase, including bonding and painting directly after wiping.
- Cleaning of de-energized electrical equipment, steaming or drying thoroughly before re-energizing, water-repellent treatment recommended (WADIS 24 or WADIS 5/85).
- Metals are protected by corrosion inhibitors to limit post-treatment oxidation during inter-operational phases.

### TECHNICAL CHARACTERISTICS

Appearance .....	Clear liquid
Specific gravity .....	1.01
pH .....	7
Flash point .....	None
Biodegradability .....	surfactants in compliance with legislation.
Free of .....	lye, phosphate, potash, E.D.T.A.

## ***PRECAUTIONS FOR USE AND STORAGE***

---

Store away from frost in original packaging. In case of frost, bring to room temperature and shake before use.

For more information regarding the danger of the product, please consult the product safety data sheet according to local regulation.

For professional use only.
