

## Approvals and conformities

DGA (French Army)	Fiche identification n°3503 - Attestation Aptitude Aéronautique n° 017
AIR CANADA	99904A1521, 99904A1522
BOEING	BOEING D6-17487 (conform)
SAE	AMS 1523A & AMS 1535C (conform)
COMAC	COMAC CMS-CT-905

**High performance aerospace cleaner that quickly cleans aircraft fuselages, landing gear, wheel bays and thrust reversers.**

SYNCLAIR A2 GEL is a high performance cleaning compound.

SYNCLAIR A2 GEL affords various exceptional and particularly interesting properties:

- **SAFETY**

SYNCLAIR A2 GEL is easy to handle without risk for the users. It is absolutely free of phosphates, petroleum solvents and colouring agents.

- **SAVING**

Because of its presentation in gel, the consumption is strictly limited to the volume needed for covering the surface to be cleaned, even if this surface is vertical or overhanging.

- **QUALITY**

SYNCLAIR A2 GEL has been tested for its safety on all kinds of painted and unpainted materials: steel, aluminium and alloys (2024, 7075), zinc, titanium, composite materials, glasses, polycarbonates. It causes no embrittlement on high strength steel.

- **EASY TO USE**

The application is easy with conventional spraying equipment (Airless is recommended). The product is visible on surfaces, drying is significantly retarded, it does not leave marks and can be very easily rinsed with cold or hot water.

- **POWER**

SYNCLAIR A2 GEL offers high performance; it is suitable for dissolution of heated and hardened greases and oils, of the most adherent soils and "washable" temporary protectives (e.g. PROPACO) by a single application ; it therefore replaces solvent-base products often used in such cases.

## ***DIRECTIONS FOR USE***

Adjust the spraying in order to avoid incorporation of air. The gel is visible, let react 15 minutes, then rinse with a jet of water. In case of very thick soils, agitation before rinsing can be useful; rinse with hot

water if possible.

## **TECHNICAL CHARACTERISTICS**

---

Appearance ..... clear colourless gel  
Odour ..... low  
Specific gravity ..... (at 20°C/68°F) 1.0  
pH ..... (at 1%) 10.2  
Flammability ..... (ISO 2719) nil  
Biodegradability ..... conform to legislation

## **PRECAUTIONS FOR USE AND STORAGE**

---

Considering the strong degreasing power of SYNCLAIR A2 GEL, in case of prolonged contact with the skin, wearing protective gloves is recommended.

Keep in the closed original containers, away from cold.

A slight deposit may appear in time during storage, which does not damage the quality of the product at all.

For more information regarding the danger of the product, please consult the product safety data sheet according to local regulation.

For professional use only.

**This technical data sheet replaces and cancels the previous one.**
